INTRODUCTION

A nurse is a healthcare professional who, in collaboration with other members of a health care team, is responsible for: health promotion, maintenance, treatment, safety, and recovery of chronically ill individuals, families or communities. Both Nursing roles and education were first defined by Florence Nightingale, following her experiences caring for the wounded in the Crimean war.

Nightingale's concepts were used as a guide for establishing nursing schools at the beginning of the twentieth century, which were mostly hospital-based training programs emphasizing the development.

PHILOSOPHY

Nursing is a profession focused on helping the community in achieving & maintaining optimal health. Our college of nursing, firmly believes in transforming the students into professional nurses with deep sense of responsibility, dedication, sincerity for the causes of humanity.

It aims at development of the health care profession with high levels of standards in tune with modern medical science and reaching the aspiration of the community.

OBJECTIVE

To upgrade socio-economic conditions of females to make them self-reliant.
To provide the best possible quality nursing care in clinical and community Health.
